## TECHNICAL SKILLS

- **Languages:** Python (Intermediate), C, C++, Java (Learning), JavaScript
- **Web Technologies:** HTML5, CSS3, JavaScript, Responsive Web Design
- **AI / ML:** Machine Learning Fundamentals, NumPy, Pandas (Learning)
- **Tools & Platforms:** Git, GitHub, VS Code, PyCharm, Microsoft Office Suite

## PROJECTS

Resume Analyzer AI | [GitHub](#)

May 2026

- Architected and deployed a full-stack AI-powered resume analysis platform that automatically parses uploaded resumes and delivers structured, actionable feedback across 3 key areas: skills, gaps, and improvements.
- Engineered an NLP-driven parsing pipeline using HuggingFace Transformers within a Python/FastAPI backend, paired with a clean, responsive React front-end.
- Deployed and hosted the application on Vercel, ensuring fast load times and reliable, production-ready availability for end users.
- **Tools Used:** Python, FastAPI, React, Vercel, HuggingFace Transformers

MrCompress.com | [GitHub](#)

June 2026

- Developed a multi-feature, in-browser image optimization tool supporting 3 core workflows – compression, format conversion, and resizing – with zero file uploads required.
- Engineered fast, fully client-side processing using the Canvas API, ensuring instant results and complete data privacy for every user.
- Designed a responsive, modern UI, streamlining the image-editing experience across devices and screen sizes.
- **Tools Used:** HTML5, CSS3, JavaScript, Canvas API

Codixa | [GitHub](#)

July 2026

- Developed a browser-based developer toolkit featuring JSON formatting, Markdown preview, regex testing, password generation, and Base64 encoding/decoding utilities.
- Engineered a fully client-side architecture using React and TypeScript, enabling fast, privacy-focused processing without requiring a backend or user authentication.
- Implemented lazy-loaded tools, responsive UI, theme support, accessibility features, and reusable component architecture for a scalable developer experience.
- **Tools Used:** HTML5, CSS3, JavaScript, Canvas API

Personal Portfolio Website | [GitHub](#)

August 2026

- Designed and developed a fully responsive portfolio website showcasing skills, projects, and contact information.
- Implemented modern UI/UX principles with interactive elements and smooth navigation, delivering a polished, professional online presence.
- **Tools Used:** React, TypeScript, Vite, Tailwind CSS, Zustand, Framer Motion, Vitest

## CERTIFICATIONS

- Crash Course on Python | Google – Coursera
- Feb 2025
- Verify: [coursera.org/verify/WCE37QAX8LRX](https://coursera.org/verify/WCE37QAX8LRX)
- Introduction to Python | CodewithHarry - Udemy
- Dec 2024
- Verify: <https://www.udemy.com/certificate/UC>
- Computer Programming (C/C++) – 150 Hours | iamNeo (An NIIT Venture) – LPU NeoColab
- May 2026

## EDUCATION

- Lovely Professional University
- B.Tech. in Computer Science Engineering – AI & ML
- Phagwara, Punjab
- Aug 2025 – April 2029
- Sun Shine Public School
- Higher Senior Secondary (12th) – 85%
- Ghazipur, Uttar Pradesh
- June 2023 – April 2024
- Sun Shine Public School
- Secondary (10th) – 80%
- Ghazipur, Uttar Pradesh
- June 2021 – April 2022
